

TECHNICAL DATA

Power Intake:	Max 3W
Excenter:	4.2 mm
Power Connection :	Micro USB
Dimensions (L x W x H):	70 x 60 x 50 mm
Weight:	Approx. 120 g
Operating Mode:	Continuous operation
Drive:	High Performance 6 V DC Motor
Voltages:	4.5 - 5 - 5.5 - 6 - 6.5 - 7 - 7.5 - 8 - 8.5 - 9

DESCRIPTION

The ELEKTRA Wireless Tattoo Machine is an All-in-One Machine, with all functions available at the push of a button. Its autonomy offers comfort and freedom of artistic expression. ELEKTRA is structured to accommodate all types of cartridge grips available on the market and also traditional grips. An adjustable cartridge grip is included, together with two cartridge needles.

We have combined ELEKTRA with an interchangeable 4.2mm cam excenter (included) that can be used for dots, lines, shading and filling. The excenter is powered by a small and silent 6V Faulhaber motor, programmed to work with 10 speed steps, from 4.5 to 9 V. Long battery life guaranteed in a quality product made in Germany!

FACTS

- Ergonomic, small and silent
- Freedom of movement to reach any point of the body
- 10 speed steps
- Duration from 2h30 to 4h30 depending on the used cartridges, applied pressure and speed
- Battery from a minimum of 1500 charge-discharge cycles
